Overview:
This course aims to provide you with the foundational Excel knowledge and skills necessary to begin that journey. This course covers Microsoft Office Specialist exam objectives to help students prepare for the Excel 2010 Exam and the Excel 2010 Expert Exam.

Target Audience:
This course is intended for students who wish to gain the foundational understanding of Microsoft Office Excel 2010 that is necessary to create and work with electronic spreadsheets.

Pre-requisites:
To be successful in this course, you should be familiar with using personal computers and you should have used the mouse and keyboard. You should be comfortable in the Windows environment and be able to use Windows to manage information on the computer. Specifically, you should be able to launch and close programs; navigate to information stored on the computer; and manage files and folders.

At Course Completion:
Upon successful completion of this course, you will be able to create and develop Excel worksheets and workbooks in order to work with and analyse the data that is critical to the success of your organisation. Students will also be able to:
- Get started with Microsoft Office Excel 2010
- Perform calculations
- Modify a worksheet
- Format a worksheet
- Print workbooks
- Manage workbooks
